

UMESH KUMAR MAHTO

IT Professional | Java Developer

📞 6201033951 @ ukm3423@gmail.com 🔗 linkedin.com/in/umeshkumarmahto/ ⭐ https://github.com/ukm3423

SUMMARY

Motivated and detail-oriented Java Developer with hands-on experience in building scalable web applications using Java, Spring Boot, and RESTful APIs. Proficient in object-oriented programming, backend integration, and working with frontend frameworks. Skilled in agile methodologies and committed to delivering clean, maintainable, and high-quality software solutions.

EXPERIENCE

Java Programmer

Sparrow Softech Private Limited

📅 04/2024 - Present 📍 Ranchi, Jharkhand

IT company specializing in software development and solutions.

- Developed applications in Spring Boot within a microservices architecture.
- Collaborated with team members to design and implement RESTful APIs.
- Ensured database connectivity and optimization using PostgreSQL.

Junior Software Programmer

Aadrika Enterprises

📅 04/2023 - 10/2023 📍 Ranchi, Jharkhand

A private company specializing in Laravel backend development.

- Collaborated with a team of developers in a private company specializing in Laravel backend development.
- Gained hands-on experience in Laravel's ORM (Object-Relational Mapping) for efficient data management and retrieval.
- Developed APIs and endpoints to facilitate data communication between the frontend and backend.

EDUCATION

Master of Computer Application (MCA)

Ranchi University

📅 08/2021 - 06/2023 📍 Ranchi

Bachelor of Computer Application (BCA)

Doranda College, Ranchi University

📅 08/2018 - 07/2021 📍 Ranchi

Intermediate of Science (I.Sc)

Gossner College, Ranchi University

📅 07/2016 - 08/2018 📍 Ranchi

Matriculation

St. Louis High School, Harmu

📅 04/2015 - 04/2016

CERTIFICATIONS

Java Full Stack Development

Anudip Foundation

📅 01/2023 - 03/2023

- Gained hands-on experience with core Java concepts, Spring Boot, and RESTful API development.
- Developed full-stack applications using Java, Spring Boot, and front-end technologies.

SKILLS

HTML/CSS, Core Java, Hibernate, Advanced Java, Spring Boot, Microservices, Git & Github, Kafka & Zookeeper, Docker, Kubernetes, MySQL, PostgreSQL, Postman, Laravel, React Js

PROJECTS

UPYOG – Urban Platform for Governance

📅 05/2024 - Present 📍 Ranchi

Contributed to the development of the UPYOG platform, a digital governance solution for urban local bodies. Worked on multiple key modules including **Property Tax**, **HRMS**, **FSM**, and **Finance**, all designed as independent **Spring Boot microservices** to ensure modularity, scalability, and performance.

- The module is built using **Spring Boot** microservices for the back-end, **React** for the front-end, and **PostgreSQL** for the database. The project leverages **AWS Cloud** for deployment, with tools like **Kafka**, **Zookeeper**, **Docker**, and **Kubernetes** to ensure scalability, performance, and efficient management of microservices.

Student Management Website

📅 11/2023 - 03/2024 📍 Ranchi, Jharkhand

🔗 https://golearnify.netlify.app/

Designed and developed a complete student management system for QuickComputer, a local computer training institute.

- Developed a fully functional website for **QuickComputer**, a computer institute, utilizing **React** for the front-end, **Spring Boot** for the back-end, and **PostgreSQL** for the database.
- Integrated the front-end with the back-end API to handle user requests and interact with the database.

Inventory Management

📅 04/2024 - 04/2024

Implemented an Inventory System for overseeing stock and sales processes.

- Developed a comprehensive inventory management system utilizing Spring Boot and Thymeleaf.
- Designed and implemented modules for purchase, sale, reports, and stock management.

School Management System

📅 04/2023 - 10/2023

Designed with PHP Laravel Framework

- Developed a School Management System for efficient management of school operations.
- Utilized Laravel's ORM (Object-Relational Mapping) to interact with the database and perform CRUD operations.
